"Science can be a blessing or a curse." Dr. Theodore Martin would know. As one of three scientists who changed the lives of an entire platoon and their families with a genetic experiment that goes wrong, he races with time to make things right. Dr. Martin's only daughter, Shana is changing genetically, but he hasn't told her. His best friend's son, Andre Taylor, may be the key to reversing the effects of the experiment. Meanwhile, Shana finds herself entangled in a web of mixed emotions and desires. She discovers she's in love with a gorgeous boy who is involved with two other women. What's a girl to do, especially when her father is keeping secrets about them all?
